MYSTERIOUS MALADY.

Is Killing Many Horses In and Around the City.

Animals Suffer Terrible Pain Before Death Relieves Them.

A mysterious disease is killing horses in and around Cloverport. The afflicted animal is suddenly seized with violent pains which causes it to stagger and in a few hours death comes to its relief. The first animal in this city to succumb to the unknown plague was Dr. R. L. Sweeney's horse known as "Charlie." The latter was the equine champion of the town and has been driven by almost every person in the city. On Thursday, when he was being led to water by a negro boy, he was seized with violent pains and fell on the bridge. His suffering was intense and a great crowd saw him in the throes of agony. He became blind before he died. On Friday Charlie Bohler lost a horse and J. C. Weatherholt lost two fine animals from the same disease. It has since become epidemic and the money loss due to the mortality among horses in this section cannot be estimated. It is thought that this is the same disease that is killing so many horses in Davison county.

An Evansville man, who is identified with the drug trade, and who has a considerable knowledge of the symptoms of poison, said that the malady which is killing off the horses in this section of the country is ergot poisoning and that it is the result of feeding them blasted corn. Ergot, which is a poisonous drug, used in obstetrics, is derived from blight-

ed corn and the antitoxin for the poison, which is the same for horses as for human beings, is a mixture of mustard and warm water, followed by large draughts of warm water. Give strong draughts of coffee and whiskey with charcoal freely. Keep the horse lying down and prevent it from beating its head against the ground.

Many a household is saddled by death because of the failure to keep on hand a safe and absolute certain cure for ergot such as One Minute Cough Cure. See that your little ones are protected against emergency.—Short & Haynes.

Christmas Dinner.
The members of the Methodist church at Hardinsburg, are to give a grand Christmas dinner in Tied's old store house December 24th, for the benefit of the church. All are invited.

Overcome evil with good. Overcome your coughs and colds with One Minute Cough Cure. It is a good children's cry for it. It cures cough, bronchitis, pneumonia, grippe and all throat and lung diseases.—Short & Haynes.

A New Light.
The enterprising new firm of Jolly & Cain, at Irvington, has installed an acetylene gas plant in their store and now that establishment is the most brilliantly lighted one in the county. Irvington keeps growing more and more up-to-date.

The sooner a cough or cold is cured without harm to the sufferer the better. Lingering colds are dangerous. Hacking coughs in distressing. One Minute Cough Cure quickly cures it. Why suffer when such a cough cure is within reach? It is pleasant to taste.—Short & Haynes.

KEEPS ON GROWING.

Ballman's Ear of Corn Laid in the Shade.

Thomas J. Jolly, of Bewleyville, Breaks the Record.

The triumph of J. W. Ballman, of West View, was short lived. Last week he sent word that he had an ear of corn that for size could beat anybody's ear of corn that he has sown. It was a match and must yield the palm as well as the championship belt to Thomas J. Jolly, the genial proprietor of the Newey Heights farm one mile north of Bewleyville.

Mr. Ballman, it will be remembered, lives at West View, and in autumn season he succeeded in raising an ear of corn that had 28 rows, averaging 52 grains to the row, making 1,456 grains on the ear. He thought he had a clutch on Thursday last Mr. Jolly was stumped and he found an ear that was a giant. It had 28 rows, and there was an average of 54 grains to the row, making 1,512 grains to the ear.

This ear of corn is now on exhibition at Jolly & Cain's store at Irvington and Bob Jolly, Roy Cain or Clint Addison will show it to you without money or without price.

Those Irvington people are growing to know the difference between a Ballman and a Breckenridge farmer to produce an ear to beat it. Bob Jolly picked staminate ears on Thanksgiving day and it looks as though the Jolly's are trying to corner all the standing in the way of Brother Willie's triumph.

"As the ear of the rubber-producing old farm adjoining friend Ballman's in the Fair View neighborhood, I was exceedingly pleased to note that he had produced the mammoth ear of the season. I had about concluded that inferior cultivation was all that kept our broom-edge fields from being the most enormous producers in the county, but Fair View is seceded. Glendene has done it. Clint White tells me that he has an ear of corn with 30 rows of grain with 46 grains to the row, making 1,380 grains to the ear. The prize on some other section is unquestionable and without seeing this grain production, we are willing to bet that the prize on some other section is heard from.

Clint ought to be the happiest man that reads the News, he's the man that he remembered, and now that he ought to be smiling from ear to ear."

A cough is not like a fever. It does not have to run a certain course. Cure it quickly and effectively with One Minute Cough Cure. The best remedy for all ages and for the most severe cases. We recommend it because it's good.—Short & Haynes.

Big Purchases.
Foster Lyons has purchased 10,000 pounds of tobacco at Carter so far this season. He paid from 14 to 17. All Tappan's bought 40,000 pounds of tobacco at Rosetta, paying from 14 to 17. These buyers are operating earlier in the season than usual and have made unusually large purchases for this time of year.

Soothing, healing, cleansing, DeWitt's Witch Hazel Salve is the impalpable enemy of sores, burns and wounds. It never fails to cure Piles. You may rely upon it.—Short & Haynes.

Will Make Arrangements.
There will be a meeting of the citizens of Irvington, Saturday, Dec. 24th, for the purpose of making arrangements for the holding of a Farmer's Institute at that place. Committees will be named to see that visitors are entertained and such steps will be taken as will make the institute an assured success.

When you ask for DeWitt's Witch Hazel Salve don't accept a counterfeit or imitation. There are more cases of Piles being cured by this, than all other combined.—Short & Haynes.

Poor and Weak

Catarrh and Bronchial Trouble—Has No Appetite—Now Better in Every Way—A Delicate Child.

"Some time since I took a sudden cold and could not get rid of it. Being subject to catarrh and bronchial trouble I coughed terribly. I lost my appetite and grew poor and weak and I did not feel like work. I began taking Hood's Sarsaparilla. In a short time the cough disappeared, I slept well, had a good appetite and I was better in every way. Last spring I was not feeling well, I had no appetite and no strength. I resorted to Hood's Sarsaparilla and soon felt more like work. My little nephew was a delicate child and had a humor which troubled him so he could not rest at night. He has taken a few bottles of Hood's Sarsaparilla and now he has a good appetite and is able to sleep." Miss Anna J. Farnham, Southbury, Conn.

Hood's Sarsaparilla Is the One True Blood Purifier, Adulterated. Hood's Pills are the best for constipation, biliousness, indigestion, etc.

The members of the cast are now rehearsing and have made wonderful progress. Their work is a real and interesting performance. There will undoubtedly be a large attendance at the show.

SOCIETY SENSATION.

Louisville Man Shoots His Sister's Betrayal.

The Latter is a Prominent Owensboro Attorney.

A sensational encounter took place on Second and Walnut streets—Louisville Sunday. Robert McDowell, a young lawyer and society man, shot and wounded Freeman Little and chased him down the street. The latter, a policeman, and swore out a warrant, charging Little with criminal assault upon his sister, Kate McDowell, last August. The fight was witnessed by Miss McDowell, and to some extent, Irvine. When Little was shot, Irvine put his sister into a carriage and drove her home.

All the people are socially prominent. The McDowells are at grandchildhood of Henry Clay. Their father is W. F. McDowell, of Louisville, brother of Col. Henry C. McDowell, of Louisville. He and Ashland, the famous blue grass home of the great commander at Lexington. All are devoted to society and popular. The latter is the son of Judge Little, a prominent lawyer of Owensboro. He and Miss McDowell have been engaged for some time. Recently Mr. McDowell found it necessary that the marriage be immediately solemnized, but Little refused, saying he would not be ready until next April. The girl insisted that she would marry him at once or death. Little again refused. Last week she told her troubles to her mother, who told her son. The girl then wrote another letter, insisting upon marriage, but Little again refused. He came up from Owensboro Saturday morning and wrote her a note, asking her to meet him at Second and Walnut streets in the afternoon. She took her brothers in her confidence, and they accompanied her. When they met Little, Robert told him that he must take charge between marrying his sister at once or death. Little again refused. McDowell told the story in detail, but Little refused to say a word.

The person who disturbed the congregation last Sunday by coughing, requested to call on Dr. Fisher, Cloverport; R. A. Whelan, Hardinsburg; E. A. Whelan, Hardinsburg.

ELVEN RECRUITS.
Breckenridge Boys to go to Manila With the Army.

Lieutenant W. T. Johnston, of the 3rd United States Cavalry, was in the city Monday for the purpose of accepting recruits for the 22nd United States Infantry, now stationed at Ft. Crook, Nebraska.

He took with him to Louisville, the following persons who enlisted at the station: John W. Powers, Walter H. Stiff, Barney J. Snyder, Charles Glenn and Richard J. May, of Breckenridge county; Jacob F. Turner, Albert E. Berger, John E. Schwartz and August Jackson, of Perry county; and John H. Stevens, of Hancock county, and Hayes B. Hilton, of Nelson county.

The 22nd Infantry has been ordered to Manila and it is thought will go by way of the Suez canal, thus giving its members a trip around the world.

C. H. Hagerly, district passenger agent of the Pennsylvania lines was in the city working up the soldiers' business for his road.

HOME WAS BURNED.

Destructive Fire at Rockvale Friday Night.

But Little of the Contents Were Saved From Ruin.

At two o'clock last Friday night Mr. and Mrs. Joe Howard were awakened to find their dwelling on fire. They saved but little of their property, the fire being under such headway that no time was allowed them. The house was a substantial one, occupied by Dr. Deuster before he moved to Glendene. There was no insurance. The origin of the fire is unknown. From his position at the time it was discovered it looks like the work of an incendiary.

SULZER'S Christmas Opening has always been the leading holiday event, and this year it fairly eclipsed its former glory. The fact that the store is more brilliant than ever, and that the stock of Christmas goods is the largest ever carried has stimulated public interest, and for the past week the store has been the center of attraction. Its wealth of beautiful things has made it as attractive as a three ring circus.

For Our Customers

The immense crowds of people who visited our store last week expressed their amazement at the variety and extent of our Christmas stock. They had every reason to do so. It may be a matter of information to you to know that every quarter of the globe has been ransacked to furnish articles suitable for gift giving for our patrons. Germany has furnished a wealth of toys, some of the quaint sheep, donkeys, Noah's Arks, and dolls having been made in the far famed Black Forest.

Switzerland, whose people are noted for the cunning of their hands, has contributed sweet toned music boxes and delicately wrought jewelry, as well as beautifully carved handles for umbrellas and canes.

Austria has sent beautiful hand painted pottery, fashioned as delicately and tinted as daintily as the famous Sevres ware.

Holland has sent serenely with her contribution of delft ware with the queer decorations representing Dutch windmills and dumpy, roly poly Dutch boys and girls.

England has sent cutlery, Scotland has sent woolen goods, Ireland has sent linen articles, France has sent a thousand fanciful articles, while India, Africa, China, Japan, South America and all the islands of the sea have some product here to show how industriously old Santa Claus has worked to gather things to promote the festive joy of his favorite people.

There's instruction as well as entertainment in the stock of goods at our store.

Buying Crowds.

The immense crowds of people that visited our store in the past seven days were as hungry for bargains as alligators are for poodle dogs. They looked over our selection of Christmas goods and the way they made purchases was a caution. They realize that our prices discount city prices and that our stock is as varied and extensive as city stocks. They had a realizing sense that Sulzer's is a veritable palace of bargains. In other words they had a good thing and they pushed it along.

The Children

HAVE simply been in paradise the past week. They flock to Sulzer's and gaze with wide open wonder on this Aladdin's palace of treasures. They go into ecstasies over the mechanical toys, the magic lantern, the tiny pianos, the toy animals, the life like dolls, the drums, the trumpets, the tin soldiers.

They Feel Rich

With a wealth of joy when they feast their eyes on the prodigious profusion of things that Old Kris Kringle, as the German children call him, has brought them. It's the height of pleasure to witness the glee of the little tots when they pick up a doggie that can bark, a doll that can close its eyes, a bird that can sing just like they were truly alive.

The Little Ones

Just revel in the scene that reminds them of fairy land and they say a great many things that are complimentary to Santa Claus and that jolly old soul just blushes like a school girl.

It's Our Observation

That if you want to please the children you should come to Sulzer's to buy your toys. The fact the little ones crowd into our store and make it headquarters show that in their judgment we've got the best stock and the things they like most. You can bank on children's being the best judges in this matter and the evidence they give of absorbing interest truly shows that Sulzer's just now is the hub of their childish universe.

A TREAT For the Ladies

IN OUR
Fancy Goods
Department.

ONE of the chief attractions at Sulzer's is the fancy goods department. The feminine element of last week's crowds took advantage of the rich opportunities of this feature of our holiday stock. They found our line of embroidered handkerchiefs, silk goods, neckties, etc., hard to beat and they patronized it very liberally. Another thing they did justice to was the stock of silver goods. They declare that the silver novelties are the acme of perfection. The line of decorative ware came in for its share of praise. The people are now out in force and the holiday spirit is at its height. We don't like to use slang, but as its expressive we feel moved to say if you want to get in the "swing," just follow the crowd to Sulzer's. It's a great pleasure to us to know that we've filled the wants of the people and the fact that we have succeeded in making our establishment the great gift buying center of Breckenridge county is indeed a source of gratification. This much is certain. The popularity of the people can only be gained by merit and as our place is now the most popular in the county our stock certainly possesses merit.

A REUNITED COUNTRY.

President McKinley must be supremely happy. His visit to the peace jubilee at Atlanta and his trip through the South has been productive of great good. The theme of all his speeches has been a reunited country. He has lived to see the South land as passionately devoted to the stars and stripes as it was to the stars and bars. His own utterances have been a paean of grateful thanksgiving at the consummation.

"Reunited—one country again and one country forever; proclaim it from the press and pulpit; teach it in the schools; write it across the skies; the world sees and feels it; it cheers every heart in North and South, and brightens the life of every American home; let nothing ever stain it again; at peace with all the world and with each other, what can stand in the pathway of our progress and prosperity?"

These are the utterances of a patriot, of a statesman. Whatever the political results, let us be thankful elsewhere have at the head of this nation a typical American, whose heart beats in sympathy with the inspirations and impulses of the people.

The Reason Why.

Does Robert Leonard O'Lea look proud? We reckon he does. Why is Robert Leonard O'Lea proud. He has a girl baby at his house. That is why he looks proud. It came Tuesday morning. Mother and child are doing well. So is Leonard.

The farming element of this community are looking forward to a splendid time Jan. 3rd and 4th at an institute at Irvington. It is due the efforts of Dr. P. F. Moore, that the community is so honored and he will not cease to work for the interest of the occasion. There will be preliminary exercises on the 29th for the purpose of arranging program, plan of meeting etc.

Some of the various ways and means of farming, some one has suggested Mr. Bates' opinion on intercropping. Perhaps in the way the old settled problem of "hard times" will be solved.

A Welcome Guest.

Born to the wife C. G. Reed, of Louisville, Dec. 12, a fine boy, Neal Henry Reed, Mrs. Reed at Hardinsburg with her mother, Mrs. G. W. Beal, and both mother and child are doing well.

Farmer's Institute for Irvington. Farmers come in to reason together, there is something good in store for us, things have to be changed. There is no more cruel conditions against us, save the gigantic continental tobacco combine which must be broken up by the concerted action of Kentucky growers, then our way is open. Help rise at last come to us. Legislation is acting on our side for the state proposes to help educate the farmers by establishing farm institutes throughout the state and supplying a able corps of lecturers and paying all honor for us.

All honor to our present most efficient and worthy secretary of agriculture "Hon. Louis Moore" who made this great move.

I have a letter from Commissioner Moore, saying that he will hold an institute at Irvington Jan. 3rd and 4th, 1889, and he promises to bring an able corps of lecturers and he desires a large attendance of farmers from this and adjoining counties and promises some interesting and instructive work. A cordial invitation is therefore extended to all and ladies are especially invited. A comfortable place for the ladies will be provided and good music will interpret the business. Several farmers from this and adjoining counties have been called to read papers or make us a talk on some important farm topic and the queries will bring out important and interesting discussion.

These meetings are educational and devised for the purpose of bringing the farmers together for an interchange of ideas. No farmer should afford to neglect them and especially when we see and know that as farmers we have no other understanding of our business.

After this meeting a local or county institute is got spring up and be the means of diffusing light to many a farmer that is now blinded by the ignorance of the ignorant ways. If we only learn that too many of us are watching the price of farm products rather than the more important cost of production and yield per acre our meeting will have done immense good.

Speaking about prices on farm products some farmers seem to think that prices should not only be remunerative, but fixed, or stationary. They say that

Race We're Ready for The Rush

but extremely good for the sufferer from that harassing disease is Dr. Ayer's Cherry Pectoral. No medicine can compare with this great remedy in the prompt and permanent aid it gives in all bronchial affections. It stops the cough, soothes the irritated throat, and induces refreshing sleep.

"I had a bronchial trouble of such a persistent and stubborn character that the doctor pronounced it incurable. No ordinary remedies, but recommended me to try Ayer's Cherry Pectoral. One bottle cured me."

J. C. WOODSON, Forest Hill, W. Va.

"A short time ago I was taken with a severe attack of bronchitis, and neither physical nor ordinary remedies gave me relief. In despair of finding anything to cure me, I bought a bottle of Ayer's Cherry Pectoral. Less than ten minutes entirely cured me."

GEO. R. HUNTER, Altoona, Pa.

Ayer's Cherry Pectoral

now put up in half-size bottles at half price—50 cents.

wheat ought to be worth \$1 per bushel, corn 60c, hogs 5c per pound and tobacco 25c per hundred and they actually think they ought to get it for less price and obstinately maintain that we must do it before we can ever hope to see the farmer prosperous again.

No more erroneous view could be taken than the above, and I am sorry to say that hundreds of farmers in our country have had this wrong notion thrust upon them and taught them that they are actually dragging along whining and finding fault because the "whole world is against the poor farmer," and so on.

And so the good Lord is against him for the season did not suit.

Now such ideas are poor ideas and poor ideas make a poor shillies farmer and a poor farmer makes a poor farm and a poor farm means poor crops and poor stock and poor crops and poor stock means a poor living and poorly cared for stock.

Again we see that a farmer's tendency null our country is classed a poor country and on until ours is called a poor state. All farmers are competitors and competition in farm products has become a serious and a competition so strong that the strongest succeed and the weakest fail. A competition requires not only industry and under-standings of soil, but a condition that eliminates business judgment. If we succeed, we must know what it costs on our kind of soil to produce a bushel of wheat, or corn, or 100 pounds of pork or beef or if we are wise to our business salvation we must consider well the loss of fertility to the soil in producing the crop.

So come out and attend the institute will do you good, or do you good, according to your degree of ignorance.

Dr. P. F. Moore.

For broken limbs, chilblains, burns, colds, bruised shins, sore throat, and other ailments, apply BALSAM OF SNOW LIME. It will give immediate relief and heal without pain. Price 25 cts and 50 cts.—A. R. Fisher.

Two Pointed Questions Answered

What is the use of making a better article than your competitor if you cannot get a better price for it?

Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale that will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one. This explains the large sale of Chamberlain's Cough Remedy.

The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty but forth with they return to Chamberlain's.

Are you certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy.

Deadly Cancer Cured at Last!

Do Not Give Up in Despair—There is Hope!

For ages it has been thought that Cancer is incurable, and those so unfortunate as to have this dreadful affliction have considered themselves beyond hope of recovery. The doctors are absolutely unable to afford any relief, and the poor sufferer might well consider himself on the way to an early grave.

It is now easy to see why the doctors have failed to cure Cancer. Their theories have been all wrong, and hence their treatment misdirected. They have made the mistake of thinking that by cutting out the sore or ulcer, known as Cancer, the disease would be gotten rid of, and the patient restored to health. But the cruel knife accomplished nothing, for the Cancer promptly returns, and is always more virulent than before.

It has been demonstrated, beyond doubt, that Cancer is a blood disease, and can be cured by the surgeon's knife because the blood can not be cut away.

Several years ago my wife had an ulcer on her tongue, which was not regarded seriously at first. It refused to heal and began to grow, giving her much pain. The doctors treated it for quite a while but it would not cure.

DEFENDING THE NATION.

Cataract is our country's enemy. Lagrippe, lung troubles and other diseases of the mucous membrane take hold of our people and fatality follow with alarming frequency. All of these troubles are catarrhs, and as a doctor does not exist where the membranes are clean and healthy.

Mrs. Lou Davis, Fayetteville, Tenn., tells in her letter how Dr. Hartman's great catarrh remedy, Per-u-na, cured her of la grippe and serious lung complication. She says:

"I was afflicted with a disease commonly known as la grippe two years ago. The doctor said I had consumption. I got one bottle of Per-u-na and the second night my cough stopped. I took several bottles, and I will say that I believe I would be a dead woman now if it had not been for Per-u-na."

Mary M. Pruitt, Palpa, Mo., says: Per-u-na Medicine Co., Columbus, O.

"I had la grippe for three successive years. It seemed to get a tighter hold on me each year. It seemed I was in the jaws of death. What had helped me before would not do me any good. I saw an advertisement of Per-u-na, procured two bottles and cured myself. I have not felt any symptoms since. You may use this in any way you please."

Dr. Hartman's Cough Syrup is the safest and sure cure for those dangerous affections of the little ones—croup, whooping-cough and measles. Physicians prescribe it, children like it and mothers are anxious. Price 25c.
